

PHOTOVOLTAIC FAÇADE NEW CONSTRUCTION

PepsiCo is a global food and beverage corporation that operates across more than 200 countries with a workforce exceeding 260,000 employees.

The facility in Puebla, Mexico, boasts **customized crystalline silicon PV glass panels**.

These units feature a **double laminated safety glass** configuration made with **tempered glass** and are customized with a **bluish colored** rear ceramic frit, aligning seamlessly with PepsiCo's aesthetic preferences.

This PV glass generates a substantial amount of energy and prevents heat entry, which is excellent for the area in which it is located.
